

About Fish Winnipeg

Fish Winnipeg, in support of Winnipeg's Urban Angling Partnership, is a non-profit organization that raises monies to support youth angling programs in the City of Winnipeg. The program introduces youth to recreational fishing opportunities while promoting angling as a healthy, self-esteem building outdoor leisure activity for our youth.

Since its inception, Fish Winnipeg has raised over \$350,000 and provided in excess of 8,000 youth with an opportunity to participate in recreational fishing within Winnipeg city limits.

Scholarship Program

The Fish Winnipeg Scholarship Program (FWSP) administrated by Fish Futures Inc. was established in 2012 to support Winnipeg's youth who wish to continue pursuing a post-secondary education in natural resources, with an emphasis on fisheries. The scholarships are awarded to graduating high school students entering a post-secondary institution and to students already enrolled in a recognized academic facility.

The program's emphasis is placed on youth who have participated in the Fish Winnipeg program and wish to enhance their understanding of Manitoba's fisheries resource. Applicants must demonstrate how the scholarship will benefit their current studies and what their aspirations are for the future. The number and amount of scholarships awarded annually will vary, based on the number of applicants, and the funds available for distribution.
